BULLETIN

Washington, July 19.—Soissons has been captured by the Franco-American troops, according to official reports reaching here from the battle-front late this afternoon.

No details were given.

Official announcement of the fall of the city was made by the war department officials, shortly after official reports of the capture of 30,000 Germans were made public.

Washington, July 19.—Thirty thousand Germans have been captured in the Franco-American drive, according to official information.

The fall of Soissons seems to be indicated by progress made by Franco-American troops, according to the latest official dispatches, Secretary Baker said today. There is no confirmation of the report that the city has fallen, however.

London, July 19—3:23 p. m.—That the Franco-American offensive may force the Germans to retire on the entire Rheims front where the enemy has engaged 23 reinforcement divisions or half their total reserves, was the belief expressed in military circles here this afternoon.

It was also stated that crown prince Rupprecht probably will start an immediate offensive on the British front in an effort to relieve the Rheims disaster.

Allies Take Initiative

Paris, July 19—4 p. m.—The allies have taken the initiative and the Germans are on the defensive everywhere, an official statement issued by the allied high command declared this afternoon.

"We are taking the initiative and the enemy is on the defensive everywhere," the statement said.

"Franco-American forces are exerting great pressure on the enemy salient between Montdidier and Rheims.

"South of Oureq, American troops seem about to envelop Neuilly-St. Front.

"The number of prisoners and guns surpassed our fondest hopes. Premier Clemenceau watched the battle near Soissons."

The Germans are pouring reserves in to stem the Franco-American advance toward Soissons. All present plans of the German general staff looking toward Paris have been thrown out of gear by the allies rapid strokes.

The fighting at some places was furious all night long, dispatches from the front today said but the Americans were able to gaze on Soissons from a plateau when dawn came today.

Two American units and one French have sent back three thousand prisoners from their sectors of fighting.

COUNTY HAS 60 MEN IN CLASS 1

Number Army Selection Board Will
Report to State Conscription
Officer Tomorrow

10 COLORED AND 50 WHITE

Quota of Three Auto Mechanics Will
Go to Valparaiso August 28 in-
stead of Purdue

The county army selection board will report tomorrow to the state conscription officer, Major Baltzell, that the county has sixty class one military registrants ready to be inducted into the army, ten of them colored and fifty white.

There are thirteen white and nine colored men left in the 1917 class of registrants and thirty-seven white and one colored of the 1918 class are ready to enter the army. This does not count thirty-eight of this year's class who have agricultural claims before the district board. There are also eleven registrants of the 1917 class who have been held for limited service.

Another class one man of this year's class enlisted in the marine corps yesterday when Irvin Walker of near this city went to Indianapolis to be sent to a southern training camp. He made a claim for a deferred classification on account of being a farmer, when he filled out his questionnaire, but waived his right to a lower class and decided to enter the marines.

The board was instructed today to send the increment of three motor mechanics who have been listed for induction, to Valparaiso university instead of Purdue university. They will entrain August 28 in accordance with the original call, but their destination was changed. This quota for Valparaiso will be in addition to the increment of three volunteer mechanics who will be sent to the same place August 1. The three men who will be sent to Valparaiso instead of Purdue are Ralph W. Martin, Byron S. Newhouse and Paul Schultz.

The board has received a claim for a deferred classification for Stanton V. Cram, because of being in war work. Cram is one of the quota of forty which will be sent to Camp Taylor next Thursday. No action has been taken on the claim by the local board. The claim is supported by a signed statement from Cram's employers, the Remy electric division of the United States Motors Corporation at Anderson.

IS FINED FOR AN ASSAULT

Melville Richardson, 17, Accused by
Meredith Harrell, 14

Melville Richardson, age 17, was fined one dollar and costs by Squire Newhouse yesterday for assault and battery. He is accused of having assaulted Meredith Harrell, adopted son of Mrs. Clara Harrell, West Second street, who is only fourteen years of age. Richardson is alleged to have stationed himself in front of Harrell's house, and refused to let the Harrell boy in. Two other charges for profanity and intoxication were continued pending Richardson's good behavior. The fine was paid.

The infant son of Donald Alexander is critically ill.

Chestiness Is Natural With Yankees Just Now

Chestiness is a quality most noticeable in the down town streets of the city these days. On street corners, in stores, in offices—nothing is discussed but the deeds of the Americans, who shattered Kaiser Wilhelm's dream of a decisive victory.

Deep in the detailed reports in newspapers and shorter wires posted in some of the down town stores, long, low whistles of approval burst involuntarily from the lips of these proud Rush county fathers and brothers of the Sammies, as the report of some new and glorious victory or some daring enter-

prise has been successfully accomplished.

"It is just what we expected of our boys"—That is the way the people of Rushville are commenting on the first great enterprise of the Americans in the world war. Although the victory and the glory belongs to the American soldiers as a whole, there is a greater thrill of pride in the hearts of local people today because somewhere in the magnificent advance of the "doughboys" Rush county Sammies are figuring in the retreat of the Huns back into Hunland.

Germans Must Move Fast To Escape A Big Disaster

(By United Press.)

London, July 19.—The German army facing the Franco-American forces in the Soissons district must move fast if it is to escape a disastrous pocketing.

Opinion was united here today that the onward smash of the French and American troops marks the first stage of the tide now moving to engulf Germany. That nation and its allies are everywhere on the down-grade and losing the initiative. The allied upper hand grows more noticeable as Americans continue to pour in.

On all fighting fronts today the allies, activities are victorious and significant.

With failure of the German drive toward Rheims, the vic-

torious Franco-American counter-blow toward Soissons, the Italian activity in Albania and at Pola, there is a possibility that there soon will be more important developments along the west front.

The allied armies everywhere are straining at the leash, eager to take a smash at the Hun.

It looks here as if the allies had hit their victory stride.

The navy isn't sleeping while the allies are steadily smashing at the Germans on land and in the air. The ships are filled with men who are aching for a chance. In this connection advances are coming from a neutral country that eyewitnesses report great activity in the German fleet, which is said to be mobilizing at Kiel.

Nation Awakes To Full Realization Of Victory

Nation Awakes Head

Washington, July 19.—The American nation today came to a realization that its army in co-operation with the gallant soldiers of France had won its first great victory on European soil. Surprised and scarcely able to grasp the extent of the offensive operations between the Aisne and the Marne as the fragmentary details came in during the day yesterday, the people today saw clearly that American soldiers, many of whom were in civilian life twelve months ago, had received their first baptism of fire and in six hours had won more ground, taken more prisoners and captured more war supplies from the enemy than did the Germans in three days of a carefully prepared offensive along the Marne early in the week.

While reluctant to give official expression to their opinions until fuller details of yesterday's counter-stroke and the full extent of the Franco-American victory are received, it was evident at the war department today that high officials inwardly shared the feelings of the public.

The belief was expressed widely in official circles that the attack had been definitely

turned, that yesterday's successes between Chateau Thierry and Soissons, the first allied offensive of any consequence of the year, mark the end of the allied defensive policy, and that the point has been reached in the accumulation of man power and munitions in France where General Foch is enabled to assume his favorite role as an offensive leader.

Events of today, however, were awaited eagerly. It was realized that unless the Germans were completely demoralized by the surprise attack on the twenty-five mile front, stiff fighting would ensue. Masses of fresh troops from beyond the Aisne would undoubtedly be brought up by the Germans today in an effort to stop the onrush, which has carried the French and Americans beyond their objectives with the officially reported capture of twelve towns and uncounted prisoners.

SEASON TICKETS ARE PUT ON SALE

Are Distributed Among Chautauqua
Guarantors Today and Will be
Sold at Same Price

PROGRAM BIGGER AND BETTER

Extra Day is Added so That Bryan
May be Heard, But No More is
Charged For Season Tickets

A systematic canvass of the city to boost the sale of chautauqua tickets was launched this morning and the guarantors expect a speedy disposal of the required number of tickets to finance the affair successfully.

A. M. Taylor, chautauqua secretary, completed the distribution of the tickets this morning, leaving instructions with the guarantors to complete the sale if possible within a week, which will still leave a week before chautauqua opens for other preliminary plans which will take the time of the men.

Prospects for a chautauqua, which will be a financial success, are brighter this year than ever before and going hand in hand with the best program in years, will doubtless culminate in a great success from every standpoint.

An addition to the program, which comes with the address of William Jennings Bryan, will necessitate the opening of the program on Saturday instead of Sunday. Thus for the first time in several years the chautauqua will be more than an eight day program. The tickets, however, will sell at the same price \$1.50.

The guarantors for the 1918 chautauqua are as follows:

Abercrombie Bros., Geo. W. Krammes, A. L. Aldridge, E. B. Lowden, W. A. Alexander, Cornelia Lyons, L. L. Allen, A. T. Mahin, S. B. Anderson, D. F. Matlock, Clara Behout, W. H. McMillin, E. A. New York, July 19.—Lieutenant Quentin Roosevelt, reported missing after an aerial engagement over the German lines, probably landed unhurt and is now a prisoner in the hands of the Germans, according to a cable message received last night by his father, Theodore Roosevelt.

Hun Captives Now Number Over 10,000

(By United Press.)

With the French Armies in the field, July 19.—The number of prisoners taken in the Franco-American offensive had been increased to more than 10,000 this afternoon. The number of captured guns also had been greatly augmented. With one sweeping tide, the French and Americans undid practically all that had been accomplished in the latest German offensives. In fact, they had brought back the effort to a standstill while advancing themselves, carrying through the enemy line at some points to the depth of six miles. Some of the most spectacular charges in history have been attributed to the allied movement. The success is so completely successful that it foreshadows the time as inevitably approaching when the Germans must give ground everywhere.

GERMANS POUR IN THEIR RESERVES TO STEM TIDE

Continued From Page 1

Hit Salient on Both Sides

Paris, July 19.—The allies are assailing the German Marne salient on both sides.

While the Americans and French are driving forward between the Aisne and the Marne, French and Italians are attacking on a 15-mile front from the Marne toward Rheims, the war office announced today. The Italians and French have taken several towns and many prisoners.

Although German reserves have been thrown into the battle to oppose the French and Americans, between the Aisne and the Marne, the allied advance continues. They are reported within mile of Soissons. The latest reports say the greatest penetration was eight miles.

Newspapers today estimated the number of prisoners taken yesterday's drive at 10,000.

In Sight of Soissons

With the Americans in the Champagne, July 19.—2 p. m.—The battle is increasing in intensity on the whole front from the Aisne to the Marne.

The Americans and French are driving forward in an extended advance toward the main highway from Soissons to Chateau Thierry, which lies from three to ten miles east of the original line. The Germans aided by great numbers of reserves, made a heavy counter attack on the plateau southwest of Soissons. It was bloodily repulsed.

American and French troops, after organizing yesterday's gain, resumed their offensive; between the Aisne and the Marne at four o'clock this morning.

The allies pushed forward on the entire front from Soissons to Chateau Thierry, driving the Germans before them.

Airmen report huge explosions and fire in Soissons, evidently the destruction of munitions, and supplies by the enemy preparatory to evacuation of the city.

Don't Let Worms Kill Your Hogs

The fact that your hogs or sheep are in pasture and apparently free of worms today is no proof that they will not be loaded with worms a week from now, therefore WORMS ARE PESTS which must be fought continuously and feeding ACME WORM BOUNCER from birth to maturity to your pigs and your lambs, prevents indigestion, prevents fermentation of the food. PREVENTS WORMS from breeding, prevents constipation, keeps your animals on a full and even appetite, and ALWAYS THRIVING and PREVENTS 90% of DISEASE. Saves feed—STOPS LOSSES.

FREE intestinal and stomach worms are those that do not attach themselves to the intestine or stomach. Worms which attach themselves to the stomach or intestines are properly called "blood suckers" and nothing will expel the "blood sucking worm" after they are formed.

The Thorn Headed Worm is a "blood sucker" and nothing will expel them after they are formed. They have a mass of thorns or hooks about the head and not only attach themselves to the intestines but bury the head into and clear through the intestines. The THORN HEADED WORM can be positively prevented by feeding ACME WORM BOUNCER from birth to maturity.

The Wisconsin Agricultural College, Veterinary Department, in Poster Bulletin No. 3, July 1914, says: "Serum will not give good results if worms, indigestion and other diseases are present." This tells you that when your hogs are vaccinated, that you need ACME WORM BOUNCER just the same, in fact more, for you have spent on your hogs 50 to 75 cents per head more than the man who has not vaccinated.

Conservation and Economy

We hear conservation and economy linked together so much these days that some of us do not realize that these two terms are not synonymous. As a matter of fact each word has a distinct meaning and each policy a separate place in the war plan. Sometimes they work in harmony and sometimes they do not. But let us consider each one separately. Economy briefly is saving money. It means eliminating waste of any commodity, developing our resources to the fullest extent and giving up non-essentials. In economizing each individual must decide what things are not absolutely necessary to his well-being. Of course the objects sacrificed will be very different: one person will economize on his wardrobe, another on his housekeeping expenses and a third on his amusements. And yet all these will work together in harmony for the national good. Labor will be released to carry on government enterprise and money will be saved for investment in thrift stamps and Liberty bonds. To economize then keep your eye upon your pocket book and let your personal tastes dictate the means of cutting down your expenses.

In conservation, on the other hand, individual taste cannot play a part. There are certain commodities absolutely necessary for our armies and for those of our allies. While the demand for these articles is greater than ever, the world's supply, for reasons which will be sufficiently obvious to anyone who considers the question, is much smaller than usual. If we, who can substitute other articles for those in question, neglect to do so, and limit further the already inadequate supply, the government with plenty of money would nevertheless be unable to procure them, our brave soldiers would suffer needless hardships, and the result might be the loss of the war. Government experts with their fingers on the pulse of the world's business announce the commodities which we must deny ourselves as far as is humanly possible.

Barrage

Four Years of It

By CHARLES B. DRISCOLL
A peevish, fretful, lean old man Went mad four years ago;

He gave the word—a war began: Ones friends became one's foe.

The ancient dotard passed away Long since, of rage and fright: And many millions, since that day, Have marched into the Night.

Still, there be some who see these things, And wish to fight until They vindicate the right of kings To turn their royal will!

The Teuton and the posion Turk Starve, suffer, fight right well, To turn the world into a muck Of military hell.

O Satan, take your slavish Hun, And take his masters too: They sicken under God's bright sun, And long for home and you!

sible. This list varies, of course from time to time, but it consists in general of wheat, sugar, fats, meat, fuel and wool. We must keep our eyes on the list of such articles as published in the papers. We must sacrifice even economy if we find the substitutes more expensive than the articles to be saved, and we must at any cost of personal comfort or money conserve what the government asks us to conserve for our soldiers who are giving up everything for us.

Against the Lean Years

The call to the American housewife to can or preserve every ounce of fruit or vegetables she can possibly lay her hands on, is intended as much for the purpose of assisting Great Britain to lay up a food surplus as it is that the United States shall provide against the possible lean years of the future.

The food administration announces that all canned or preserved fruits or vegetables must of necessity be for civilian use. No home-canned or preserved foods can be purchased or accepted as gifts for the army or navy, although patriotic offers have been made of such supply. It is because a governmental department is not permitted to accept any article without paying for it, that this situation obtains.

The fact that home preserved fruits cannot be bought or handled satisfactorily because of difficulty in connection with accepting small lots, inspection, etc., the food administration is urging that every available can be filled with home-grown products, for home consumption which in turn will release the wheat and meat for export.

In England it has been found necessary to establish national kitchens in order to avoid waste of food, to effect saving in fuel and labor, and to obtain the greatest possible nourishment from the restricted supply. The increased yield of cereals in England will not be appreciable from the standpoint of England's total consumption. It is obviously the duty of the United States and Canada to send across all the food that shipping facilities will carry.

To correct a false impression that exists very generally, Carl Sims, chairman of the milling division of the Indiana food administration, announces that it is not necessary that there shall be a purchase of substitutes with rye flour, as it required with the purchase of wheat flour, on the fifty-fifty basis. Rye flour may be bought and sold without any accompanying substitutes.

Who would have thought we could go abroad this year and find the Fourth of July there? When London and Paris both celebrate our national holiday, a long step is taken forward toward the brotherhood of nations.

In these days of high prices, who does not feel a sense of incongruity between the big dollars he goes out with and the small parcels he brings home?

As detailed reports of the battles come in, how the gay high courage of our boys at the front thrills the nation.

The man who fights weeds and potato bugs is standing back of the man who fights the Boches.

The war is making history for every nation but Russia, and for her it has made chaos.

A SMASHING BLOW NOW
for the overthrow of Kaiser Alcohol means the defeat of Kaiser Wilhelm.

The final fight is on. You can make Victory sure. Your telegram, your letter to your Congressman and Senators will help gain war prohibition, speed victory and hasten the homecoming of our boys from overseas.

If you have wired your Congressman and Senator before, Wire Again. The soldier at the front does not hope to win with one shot, do you?

If your Representatives at Washington favor Prohibition, let them know you are with them. Your telegrams will furnish them the best ammunition they can use in the fight.

Get your neighbors and friends to wire. Conscript every one who wants to help the U. S. A. to win the war. The emergency demands there shall be no slackers—a telegram or a letter from every loyal patriot to down a pro-German trade.

Stand by the President in his effort to send to the front an ARMY BIG ENOUGH TO WIN THE WAR. Free the hundred thousand able-bodied men now employed in the drink trade for service at the front, or on the farm.

Stand by Secretaries Baker and Daniels in their effort to strengthen the Army for Victory and through war prohibition add a half a million men to our fighting forces whom drink unfit for service and production.

Stand by the Food Administration and bring to pass the recently expressed desire of MR. HOOVER that the waste of four and a half million bushels of grain per month may be stopped by the voice of the American people.

WHY HELP IN THIS FIGHT?
Because Prohibition strengthens the U. S. A. for Victory.

The Prohibition West sets the Shipbuilding pace for the World; the bone-dry cities of Portland and Seattle hold World Records in building complete steel ships ready for cargo, and fastest wooden ships constructed.

Secretary of the Navy Daniels recently testified in the Senate Committee, "Not a single workman has shown disaffection because of prohibition," and "Since the dry order, the Mare's Island yard established a world's record in the time to launch a destroyer."

Poet and Philosopher Who Is Coming to Chautauqua

Edmund Vance Cooke is a poet who will delight all who hear him at the Chautauqua Tuesday afternoon, August 6, at 3 o'clock. This lecture and entertainment will be one of the bright spots in this session, for Cooke can speak to the heart of everyone.

Below is printed one of his well known poems. This poem has brightened the lives of many persons. The poem will live for ages for it has a truth that touches everyone. The poem is fitting for every battle of life but probably one will think of it in connection with the soldier's life. But the poem applies to every home guard as well as every soldier. Besides reciting the poems of sentiment and humor, Edmund Vance Cooke will thrill you with heart throbs that will set your life on fire for the best in life.

HOW DID YOU DIE?

Did you tackle that trouble that came your way
With a resolute heart and cheerful?
Or hide your face from the light of day
With a craven soul and fearful?
Oh, a trouble's a ton, or a trouble's an ounce,
Or a trouble is what you make it,
And it isn't the fact that you're hurt that counts,
But only how did you take it?

You are beaten to earth Well, well, what's that?
Come up with a smiling face!
It's nothing against you to fall down flat,
But to lie there—that's disgrace.
The harder you're thrown, why the higher you bounce.
Be proud of your blackened eye!
It isn't the fact that you're licked that counts;
It's how did you fight and why?

And though you be done to the death, what then?
If you battled the best you could,
If you played your part in the world of men,
Why, the Critic will call it good.
Death comes with a crawl, or comes with a pounce.
And whether he's slow or spry,
It isn't the fact that you're dead that counts,
But only how did you die?

With The Churches

—First Presbyterian church: 7 a. m. "Quiet Hour"; 9:30, Bible school; 10:30, morning church service.—This service will be in the form of a memorial service for Carl Jackson a member of the Sabbath school, who was killed in France, and will be conducted by the pastor. There will be special music and addresses by Judges John D. Megee, Douglas Morris and Will M. Sparks. No evening service on account of the union service at the M. E. church. —The First United Presbyterian church: combined service beginning at ten o'clock, with Sabbath school followed immediately by the preaching service. Sermon theme, "The Building of Character." In the evening.

Little Brother Run Down Cried and Fretted—How He Recovered

Mountainville, N. Y.—"My little brother had typhoid fever, and it left him with no appetite, weak, run-down and always crying. Vinol proved a wonderful tonic in building him up and restoring his strength after everything else had failed."—Lucy Sherman.

The reason Vinol was so successful in this little boy's case, is because it contains the very elements needed to build up a weakened, run-down system, make rich red blood and create strength.

Take a Sunshine Tablet For Thy Stomach's Sake

There never was such a marvelous prescription for stomach distress and indigestion as Mi-o-na. No doctor ever wrote a better one; it's doubtful if any doctor ever will. It's so good that Johnson's Drug store says "money back if it doesn't relieve."

A woman in Maine calls Mi-o-na the sunshine prescription because she has seen so many sour, miserable, aggravating dyspeptics turned into happy, cheerful, sweet human beings in a few days by taking Mi-o-na.

The stomach is responsible for three-fourths of the nervousness and half the misery of the world. A woman can have a first class stomach and yet be miserable if she has a husband who is a nervous dyspeptic.

If you have indigestion, belching of gas, heaviness after eating, drowsy sensation after eating, sour stomach or any miserable stomach disturbance the prescription called Mi-o-na will put you right, and bring sunshine into your life in a week.

A large box of Mi-o-na tablets cost only 60 cents at Johnson's Drug store and by leading druggists everywhere. They are small and easy to swallow.—(Adv.)

Thirty-three years ago the Woman's Missionary society of the St. Paul's M. E. church was organized by Dr. and Mrs. Andrus, Dr. Andrus then being pastor of the church. The society disbanded for a few years and the forces were not rejuvenated until 1895, when Mrs. Wm. Kinsley wife of the pastor, assisted by Mrs. A. V. P. Adams of Shelbyville re-organized the women of the church into the present society. This twenty-third anniversary was celebrated yesterday afternoon at the home of Mrs. R. C. Hargrove, in West Seventh street, when several members who were members at the time of the renewal, were present. The feature of the program was a talk by Mrs. Hargrove, covering all phases of the organizing of the society and the work carried on by the members in the twenty-three years of its life, in which the speaker cited the fact that the national organization has had only five presidents since 1882 when Mrs. Rutherford Hays was president. Mrs. Hargrove spoke of what the Missionary societies of the churches in general will mean to not only our own America but to the whole world, when the war is over, because of the foreign element entering into the work of the societies. Mrs. V. C. Bodine discussed the patriotic activities of the organization, and the mite box work was under the direction of Mrs. D. D. Van Osdel, followed by a talk on the supply work by Mrs. John Jordan, president. The guests were also entertained during the afternoon by selections on the Edison, including patriotic songs. This meeting marks the closing of the year, and the work will be resumed in September.

The Social Club was the scene of delightful social affairs yesterday afternoon and evening when the members of the Psi Chi Xi sorority entertained with a war fund card party and dance. During the afternoon the spacious ball room and adjoining card rooms were thrown together and lined with card tables, all of which were utilized for the delightful affair which was the initial feature of the duo social events that ended with an informal dance in the evening. More than two hundred dancers and other guests attended the evening festivity, for which the Jackson jazz orchestra of Anderson furnished an excellent program of dance music. Refreshments were served during the afternoon and evening.

The dance was given by the members of the sorority who are attending college during the winter and thus will be able to assist the other sorority members in realizing the chapters' quota of \$300 for the war fund. One hundred dollars, the amount which the hostesses for the dance, were scheduled to raise, was realized and in the afternoon \$30 was added to the fund by the card players. Guests from Shelbyville, Greensburg, Connersville, Anderson, Canton and Dayton, O., were entertained.

Mr. and Mrs. Edwin G. Meyer entertained at their home in Union township Mr. and Mrs. William Meyer and son Charles of Sunman, Ind., Mr. and Mrs. George Meyer and daughter Mildred, Mr. and Mrs. George Pulsecamp and daughters Alma and Esther and Miss Hoff of Brookville, Ind., Mr. and Mrs. Louis Meyer and daughter Irene of Shelbyville, Ind., Mr. and Mrs. Geo. H. Meyer, Mr. and Mrs. William H. Meyer and sons, Walter, Jesse and daughter Martha May and Mr. and Mrs. Chas. G. Meyer.

Miss Mabel E. Ayres and Harry W. Tilley of New Salem were quietly married Wednesday evening at eight o'clock by the Rev. M. F. Hiff. Mr. Tilley will leave Thursday for Camp Taylor, where he will enter military training, and Mrs. Tilley will join him later. The wedding party, including Mrs. W. H. Bettcher, motored to Indianapolis today.

W. H. DePrez Is No Match For His Neice

Shelbyville Man Orders Police to Send Home His Machine and Chauffeur, "acquired" by Miss Josephine Ray to Attend the Dance Here, But Countermands Orders After Talk With Miss Ray By Phone.

After keeping the telephone wires between Shelbyville and Rushville hot last night for more than an hour in quest of his missing automobile and chauffeur, W. H. DePrez of Shelbyville, with the assistance of the local police, finally located them in this city.

His indignant demand to "send them home as soon as they were located" met with stormy opposition when the car was found and it developed that his neice, Miss Josephine Ray, had "acquired" both machine and chauffeur for the evening and taken a party of friends to the dance here.

The hostess of the party refused to be returned home by the police when the demands of her uncle were made known to her and after a stormy interview with her relative over the phone at the police headquarters, she came out victorious.

Contradicting his demands of a short time before, Mr. DePrez, won over by the pleadings of his neice, advised the authorities to let them stay as long as they wished and upon receiving the consent of her mollified uncle, the gracious hostess returned to the dance for the remainder of the evening.

PROPER WAY TO USE REFRIGERATOR

Many Put Butter and Milk Next To Ice Because They Think It Is Coolest Place, But As a Matter of Fact Bottom is The Coldest.

What part of a refrigerator is coolest? Does wrapping in newspapers save ice?

Although every home may have a refrigerator, every housewife can not pass an examination in the proper care and conservation of perishable articles of diet, according to Dr. Harry E. Barnard, federal food administrator for Indiana, who gives out the following advice:

"Many put their butter and milk right next to the ice because they think this is the coldest place, but as a matter of fact the coldest place is at the bottom of the refrigerator. Hot air rises, and air that is not being constantly purified by circulation around the blocks of ice soon becomes unfit to come in contact with the food. When the warm air in the refrigerator rises, it carries with it impurities and moisture which are absorbed from the surface of the food, and which if allowed to remain in the air spoil the food. The air, which is warmed by passing over the food, comes in contact with the ice where the moisture is condensed upon the surface and the impurities are carried off by the melting ice. The air is thus dried, cooled and purified. The cooled air immediately descends to gather up more moisture and impurities, and thus the process is repeated continually. Anything placed directly on or around the ice tends to interfere with the circulation of the air.

"In addition to the necessity of having a circulation of cold, dry air, it is important that, as near as possible, a uniformly low temperature be maintained. For this reason, refrigerator doors should fit tight, be closed tight, and not opened any oftener than is necessary, because every time that they are opened the cold air pours out and the warm air that takes its place is

BUNNELL RELEASED FROM THE HOSPITAL

Trinkets Belonging to Son of Rushville Minister Are Sent Here by Hospital Authorities

HAVE NO WORD FROM THE BOY

That Ruskin Bunnell, son of the Rev. and Mrs. C. J. Bunnell of this city, is probably in the thickest of the allied offensive which was launched on the west front yesterday, is indicated by the fact that his parents have received indirect word that he has been released from the hospital.

Last Saturday they received a letter from him, giving the first information that he was in the hospital recovering from a wound accidentally inflicted when cleaning his rifle. A bullet was shot through one of his hands.

Today the Rev. and Mrs. Bunnell received some trinkets of their sons which he had left behind in the hospital and the authorities had forwarded them on to his parents.

Young Bunnell is with the 96th company of the Sixth regiment of marines. His letter brought the first news of the wounding of Tom Saunders, 74th company, Sixth regiment of marines, from whom a letter was received a few hours later describing how he was wounded.

GOING AWAY TIME AGAIN

The only way to enjoy a vacation is to enjoy health and comfort with the rest.

The thoughts of a good time and lots of fun should be accompanied with care of the toilet and health. You're going away. You can find Drug Stores anywhere. But the usual "summer" drug store does not carry the big stocks that your city and home store has. So avoid disappointment—take along the things you need—buy them here and get the best at reasonable prices. We suggest—

FOR THE TOILET	YOUR MEDICINES
Cold cream for tan. Soap, Bath goods, sponges, talcums	Remedies for Colics, Headaches and Indigestion.
KODAKS	THERMOS BOTTLES
They are too cheap to be without; they're the best part of any vacation trip. Ask us.	Every kind for every purpose.
	EVER READY DAYLO FLASHLIGHTS

The truth of the matter is, folks, if it's to be found at a Drug Store, you'll find it here.

Vacation Deliveries Anywhere

With the parcel post and express you can shop here as well as anywhere. This is your own drug store and it offers you the same SERVICE away as it does when you are at home. Send your orders for anything. We'll see that deliveries are made safely and quickly.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.
